

Polymer Systems Technology Limited

Wanted a person interested in contributing to the growth of PST!

Ideal candidate will have an extensive sales experience and an interest in solving engineering problems using silicones in Aerospace, Defence, Optics, Electronics, medical and automotive sectors. If the desired candidate can prove that they can solve the silicone material requirement and process problems for UK manufacturers, this will develop the role yielding a benefit to PST and a salary with no ceiling! Planning and making appointments with good presentation skills are prerequisite for this demanding role.
