Silicone Materials for Food Contact

A Food Contact Substance (FCN) is defined as “any substance intended for use as a component of materials used in manufacturing, packing, packaging, transporting, or holding food if such use is not intended to have a technical effect in such food” (21 U.S.C. 348 (h) (6)).

Below you will find NuSil’s product listing of cured (as prescribed on the product certification) and washed elastomers that meet the extraction requirements of 21 CFR 177.2600 for Rubber Articles Intended for Repeated Use. Most of NuSil’s (material) elastomers can be tested per this requirement. Please contact NuSil Technology to make testing arrangements for any product not listed in the table below.

High Consistency Elastomers	Adhesives
MED-4020	MED-1511
MED-4920	MED-1137
MED-4930	MED1-4013
MED-4940	MED-4044
MED-4950	Low Consistency Elastomers
MED-4960	MED-4011
MED-4970	MED-4211
MED-4735	MED5-6382
MED-4765	MED-6010
MED-4032	MED-6015
MED-4042	Dispersions
MED-4052	MED10-6605
MED-4072	MED10-6607
MED-4082	MED-6045-1
