

# Polymer Systems Technology Limited

## Wanted a person interested in contributing to the growth of PST!

Ideal candidate to have a Msc or Phd in science or engineering wishing to apply their knowledge and solve problems using silicones in Aerospace, Defence, Optics, Electronics, medical and automotive sectors.

If the desired candidate can prove that they can solve the material and process problems for Uk manufacturers, this will develop the role yielding a benefit to PST and a salary with no ceiling!

### **Location**

UK

### **Applications:**

In the first instance, contact Derek Williams-Wynn for full details or a discussion about what the position entails.
